

# Enabling consumer-initiated lab diagnostics nationwide

Robust and scalable clinical infrastructure for testing oversight, diagnosis, virtual care, and treatment options.

## Test

20+ years advancing preventive diagnostic testing programs

CLIA-certified lab relationships supporting clinical oversight for 2,000+ tests and devices

## Treat

50-state licensed provider network and care teams

Telehealth and Rx to address symptoms with the right tests, prescriptions, or lifestyle recommendations

## How it works

1

Integrate testing directly through a partner website

2

Boost access to reliable lab tests, empowering proactive health management

3

Guide consumers from test initiation to results and follow-up support
