

Enriching health journeys through at-home diagnostic testing and treatment

Effortlessly facilitate at-home diagnostics and enhanced health outcomes.

How it works for you and your participants

Test is distributed on the Everlywell platform

Consumer registers the test at everlywell.com/register

Consumer collects their sample, using simple step-by-step instructions

You and the consumer are provided with updates on the shipment and processing of the test

You and the participant are both alerted of test results

Participant is given actionable next steps by a provider, when appropriate

What's included*

About Everly Health Solutions

Everly Health Solutions, a subsidiary of Everly Health, is a virtual care provider that uses advanced diagnostics and telehealth to improve early detection and prevention of disease.

Our solutions provide the clinical, legal, and technological framework to facilitate population-scale testing across key healthcare markets in all 50 states, Puerto Rico, the U.S. Virgin Islands, and Canada.

We believe that empowering people with convenient access to clinically actionable testing has the power to change lives, improve outcomes, and create a healthier world.
